(Use additional pages, as necessary, to fully describe information required)
7. Justification
(Use additional pages, as necessary, to fully describe information required)
attached
- 7.1 Intended Use Of Funds In Detail
attached

7. Justification

Minnie Cannon Elementary is TK-5th grade, a Title I school with 165 students. We are in a rural area so students do not always have as many opportunities to see things and visit places they would in a larger area.

7.1 Intended Use Of Funds In detail

The funds will be allocated for the following purposes:

1. **Preparation:** This will cover the costs associated with the development and curation of the program materials.
2. **Communication:** Funds will be used to facilitate effective communication with the program consultant throughout the project.
3. **Follow-up:** Resources will be dedicated to maintaining ongoing support and engagement with the program consultant after the initial implementation.

The funding will include the provision of a small book and supplementary items for 25 students. These resources will be designed to enhance the delivery of each lesson. Additionally, the teacher and principal will be granted online access to the lesson materials.

Furthermore, the funds will cover the following:

- A 3-hour teacher orientation session to ensure proper understanding and implementation of the program.
- 3 school visits, totaling 3 hours, to provide on-site support and guidance.
- A graduation ceremony to celebrate the successful completion of the program.

This comprehensive approach aims to create a well-rounded and impactful educational experience for both the students and the teaching staff.

The funds will be used to provide a Wellness program to our 2nd grade class that teaches fun and entertaining health and safety lessons. The lessons include hygiene, dental, nutrition, recycling, and friends and family.

7.2 How Intended Use Of Funds Will Further Delivery Health Care Services Within Redbud Health Care District

The funds will be used to help educate students that live and go to school within the Redbud Health Care District. Students will learn ways to take care of their bodies, their community, family and friends. The skills can be shared with others within the community
