Re: Portable Fire Hydrant Project Update

Dear Redbud Community Health Board,

On behalf of the Lake County Fire Protection District, we would like to extend our sincere appreciation for your continued support in helping us maintain a high standard of fire, EMS, and rescue services for the communities we serve. We are especially grateful for your investment in innovative solutions, including the development of alternate water supplies for fire suppression.

We would like to provide a brief update on this project. The units have been ordered and are expected to be delivered between mid- and late May 2026. Upon delivery, we will coordinate with multiple water companies that will assist in housing, maintaining, and deploying these units as needed. This collaborative approach will help reduce the impact on domestic water supplies while ensuring availability of suppression resources countywide.

Additionally, we are pleased to announce the launch of the new Redbud Fire Safe Council, which will serve the entire Lake County Fire Protection District service area. The event will take place on **Saturday, May 2, 2026, at Austin Park**. During this event, we will conduct a live demonstration of these units and provide an overview of their purpose, as well as highlight the critical role your agency played in making this project possible.

We greatly appreciate your continued partnership and support. Should you have any questions, please do not hesitate to contact me.

Thank you again, and we hope you have a great day.

Sincerely,

Willie Sapeta
Fire Chief
Lake County Fire Protection District
