7.3 Detailed Basis For Funds Requested

Last year, our Emergency Department saw an astonishing 20,000 patients, averaging around 56 patients per day - all of whom must pass through the triage room. Thanks to your previous generous support, we made significant upgrades to our ER in 2011. However, our current triage room is no longer equipped to accommodate the high volume of patients we now see.

Recent events have underscored the urgent need for this expansion. A nurse was recently assaulted by a patient, highlighting the inadequacies of the space we currently have. To address this, we are prioritizing the construction of a larger triage room (est. of \$168,000), which involves breaking down a wall and outfitting the area with state-of-the-art equipment (est. of \$50,000).

We are calling this initiative "Comfort in Crisis: Update our Triage Room" and are hopeful that the Redbud Health Care District will consider supporting our efforts. Your involvement could make a significant difference in our ability to provide critical care in a safe and efficient environment.

I would like to request the board support this project directly through an award of \$25,000. Due to the nature of grants, this award would not be tied to the event costs or sponsor benefits. However, we would be honored to recognize Redbud Health Care District as "Platinum Beneficiary Supporter" at our golf event separate from a presenting sponsor. And, of course, we would welcome the board to come out to play and enjoy the afternoon and dinner.
